JR Gotemba sta. (Mt. Fuji side) 御殿場駅

How to use the Local bus.

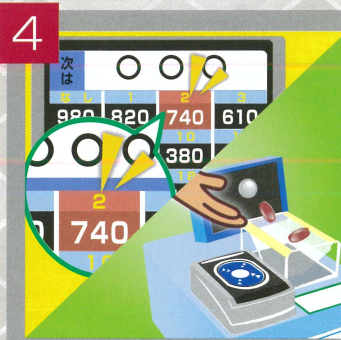

Ride from the middle door of the bus. At the time of boarding, take one numbered ticket per passenger.

Remain seated because the bus may experience bumps during the route. No talking loudly or eating is permitted while riding on the bus to prevent making trouble for other passengers.

Push a nearby button once upon hearing the announcement of your destination bus stop. When the bus driver hears the buzzer, the bus will make a stop at the next bus stop.

Insert your number ticket and payment in the fare box before getting out of the bus from the front door. Confirm the amount of payment with your number ticket and the fare indicator in the front. Also, no change is available.

"If using an IC card, such as PASMO or Suica, touch your card on the card reader when getting out of the bus. Using an IC card is simple and also recommended."
